

## MESSAGE FROM THE EDITORS

For the first time with this issue, brief biographical notes on the contributors of major articles are included in a section at the back.

Because several new members have recently joined the Editorial Board of the *Record*, biographical notes of all members are included for this issue only.

Finally, we wish to remind readers that an author, subject, and title index of the *Record* from 1986-1992 is nearing completion. An order form for the index will be included with the September issue.
